We do recommend replacing the Rite Trak I(rectangular shape with 3 holes) with the Commercial Rite Trak I and the Rite Trak II(oval shape with 2 holes) with the new Commercial Rite Trak II which includes a metal back for additional support. The small number on the back of the piece is simply a production lot number and may vary based on when the parts are produced. You can simply remove the item from your cart. We highly recommend purchasing the commercial versions with the metal backplate for support. Our price is lower than the manufacturer's "minimum advertised price." As a result, we cannot show you the price in catalog or the product page. The plate adds a great deal of strength to the support. How can I make installation easier for the Rite Trak II design? The plastic glide will cool quickly but will remain flexible so it will install much easier on the metal track. Answer: No, there is only one (1) size of Kenlin plastic drawer glides but two different styles. You have no obligation to purchase the product once you know the price. Are there different Kenlin sizes? Please wait... If your parts say "Kenlin" on them, these will replace it perfectly as there is only one size made.
